**VOYAGER JET CENTER ADDS THREE NEW BUSINESS JETS TO CHARTER FLEET**

*Hawker 800XP, Hawker 400XP and Challenger 604 Expand Options for Charter Customers*

PITTSBURGH, FEBRUARY 9, 2006 – Voyager Jet Center, LLP (VJC), a leading private aircraft management and flight services company and Fixed Base Operator at Allegheny County Airport, announced today the addition of three business jets to its aircraft management service, two fresh-from-the-factory Hawkers, an 800XP and a 400XP, and a Challenger 604.

“Owners of newer aircraft want Voyager Jet to manage their planes because they know our charter customers recognize we operate a very modern fleet,” said Rich Ryan, president of Voyager Jet Center. “Everyone wins. Charter customers enjoy the finest aircraft on the market today and owners benefit from increased revenue.”

The three aircraft operate from the Voyager Jet Center at Allegheny County Airport, the business aircraft hub serving Pittsburgh and the tri-state area.

“The combination of safety, flexibility, service and efficiency we deliver provides excellent charter value,” said Mike Dolan, vice president of Voyager Jet. “And in these beautiful aircraft, the experience is second to none.”

The 2006 Hawker 800XP has an excellent balance of speed, range and comfort. The largest cabin in the midsize class also features standing headroom throughout with seating for eight. Up front, the most advanced cockpit in the industry provides pilots with state-of-the-art decision-making tools – making the Hawker 800XP safer and more reliable than ever. The factory-delivered 2005 Hawker 400XP has the best cabin comfort for the money, with excellent performance characteristics. Perfect for medium range trips, the Hawker 400XP is one of the best

light jets on the market with a bright and spacious executive cabin. The 1998 Challenger 604 will fly non-stop to most European destinations. It has been updated with new paint and a new interior, and is configured with 10 luxurious seats.

“With the most convenient location at County Airport, just inside the west gate on Rt. 885, our modern fleet of aircraft, and the very highest standards for our flight crews and maintenance operations, Voyager Jet Center is the logical choice for both aircraft owners and charter customers,” said Mr. Ryan. “As our investment in new facilities and additional services continues, we are confident that we are providing the best customer experience anywhere in the region.”
